Education

High School Diploma

Gymnasium "Stojan Cerovic"
2021-2025

Faculty of Natural Sciences And Mathematics
Studying Computer Science
2025 - 2028

Skills

- UI UX design
- Bootstrap / Tailwind
- Responsive design
- Axios
- React
- Typescript
- Data Handling & APIs
- PHP - Laravel
- Redux
- C

Profile

Collaborative, hard-working, and results-driven web developer focused on building user-centric, high-performance web applications. Proficient in HTML, CSS, and JavaScript, with experience across modern libraries and frameworks and the ability to quickly adapt to new technologies.
Working knowledge of PHP and Laravel, used to support and enhance front-end development. Recently expanding expertise in cybersecurity, with a focus on building more secure and resilient applications.

Experience

Cortex 2023-2025

- First year, I led a 7-member team and took primary responsibility for building the entire frontend of a responsive web application
- Developed type-safe, maintainable components using React and TypeScript to improve code readability and scalability
- Integrated Ant Design to accelerate development and ensure a polished, consistent user interface
- Designed and built custom RESTful APIs to support frontend functionality and dynamic data rendering
- Delivered high-quality features under tight deadlines in a fast-paced, iterative environment

Freelance

- Developing a fully custom website based on detailed client specifications
- Fast and responsive design with an integrated admin panel for clients' full control over its content
- Custom-developed features, such as enabling the client to upload an Excel file for database update

- Working on a software solution for students that simplifies the exam scheduling process

Accomplishments

- Won first place at Hackathon: Code for Equality
- Secured 3rd place in the Web Development track at the Cortex Website Competition
- Awarded 3rd place at the m: tel Digitalna Fabrika Eco Hackathon
- Won 3rd place at MonteGames Game Jam 2025
- Selected as a Top 4 finalist in the CODES Startup Program
